DETAILED ACTION

Claim Rejections - 35 U.S.C. § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-17 are rejected under 35 USC §103(a). This rejection is set forth in the prior Office action paper number 5.

Response to Arguments

3. Applicant's arguments filed on May 22, 2002 have been fully considered but they are not persuasive.

Regarding the alleged contradiction in using the technical bulletin. The technical bulletin was not used as a secondary reference in combination with the primary reference, but rather it was cited to evidence a fact. It has been held that '[F]actual reference need not antedate. *In re* Lange, 183 USPQ 288 (CCPA) and *in re* Wilson, 135 USPQ (CCPA 1962).

While the technical bulletin was considered and put in the records, only dated reference(s) are printed in the front page when the application becomes a patent.

Art Unit: 1731

As to the arguments that the tissue shown by the reference, Andersson have bulk over 4 cm³/g and that one of skill in the art would not have motivations to make a tissue of less than the specified bulk. This is not convincing, because one of ordinary skill in the art would have reasonable expectation of success if tissues of lesser bulk is produced with Microspheres particles taught by the reference, Andersson. References are evaluated by what they suggest to one versed in the art, rather than by their specific disclosures. In re Bozek, 163 USPQ 545 (CCPA) 1969. In this case, .

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
